

On September 6,7th. The Michael Magro Foundation received a donation in the amount of \$10,000 to benefit children with cancer and their families. The Foundation was started by his parents, Paul and Terrie Magro to honor the memory of their son, Michael, who lost his life to leukemia four years ago. Terrie, Paul, and their son Marc fundraise all year for the Winthrop Hospital Cancer Center for Kids as well as Child Life Programs. Visit their website to learn more about the wonderful work being done in Michael's name - www.michaelmagrofoundation.com

Dr. Louis Pannullo, the family's Williston Park dentist, teamed up with his professional billiards friend, Tony Robles, to hold the first annual Pannullo-Predator Pool Charity Tour Stop. Many of Tony's and Dr. Pannullo's friends who are the top players in the world came to CUEBAR in Bayside to compete in the two day charity competition. Spectators were delighted to watch the high level of play and made generous donations to the cause. To raise additional funds for the charity, Jeanette Lee sold her signed photographs and posters. Many of the pool celebrities, namely, Allison Fisher, Gerda Hofstatter, Mika Ominnen, Jasmin Ouschan and Tony Robles posed for photos with their fans .

Terrie, Paul and Marc gave away Michael Magro Foundation hats and other memorabilia.

After a full day of pool competition in which Dr. Pannullo himself played, he hosted an after-party that night at his E. Williston home. In attendance were his staff, fellow dentists from NY Hospital QMC, patients, neighbors and friends who generously supported this worthy cause. Music & entertainment was provided by a local band "The Switch" . Several party attendees tried their luck against the professional players, Jasmin Ouschan and Jeanette Lee who entertained the crowd with trick shots and fun games.

The Magros are holding their annual fundraiser, "An Evening of Tasting and Giving" at The Woodlands on Tuesday Oct. 7th. For tickets and more info..... visit their website: www.michaelmagrofoundation.com
